- **History about the Manufactory**
  - I] Bakson Drugs & Pharmaceuticals Pvt. Ltd., Roorki.**

Bakson is a premier organisation, of purely Indian origin, working towards promoting Homoeopathy amongst masses and providing them with complete benefits of this promising science. Bakson conglomerate is successfully manning three divisions under its umbrella. Bakson Drugs and Pharmaceuticals Pvt. Ltd. manufactures quality homoeopathic products, Bakson Homoeopathic Medical College provides comprehensive education in the field of homoeopathy at both graduate and postgraduate levels and Bakson's Chain of over 30 Homoeopathy Clinics spread all over India extend effective homoeopathic treatment to the masses.

Homoeopathy as a system of medicine has witnessed a phenomenal change since the time of its inception. It has grown from a contemporary science with a picturesque of miniscule

globules to a much advanced, researched and revolutionary system of healing. In trend with the ever-changing needs of the society Homoeopathy has now to its credit additional facets of multiple dosage forms as OTC products. This has made Homoeopathy find its way in user friendly items of our daily regimen over and above the safe system of healing for our illnesses both acute and chronic.

Bakson without any foreign collaboration is proud to have structured an enviable image in the homoeopathic industry which is growing by bounds and leaps. We envision to further strive to yield the best of homoeopathic medicines meeting international standards. Research at Bakson is an ongoing process and besides the laid down prescribed standards of various pharmacopoeias we are continuously working in house at each step of manufacturing process with precision so as to have no compromise on quality and efficacy of finished products.

Bakson has witnessed a steady growth in the generics and specialty group of medicines. It has successfully launched many new cosmetics and holds an enviable position in the homoeopathic industry.

We have expanded our manufacturing units to Uttarakhand after Himachal Pradesh and are fully geared to cater to the growing demands of the industry

BAKSON DRUGS AND PHARMACEUTICALS PRIVATE LIMITED has got a new facelift with user friendly packaging and quality products. Research is an ongoing process and our continuous efforts have helped us deliver the best of products for a healthier community

## **II] SBL, Haridwar**

The Company laid its foundation in the year 1983 under the name “Sharda Boiron Laboratories Ltd.” in collaboration with Laboratories Boiron of Lyon, France, World Leader in Homoeopathic medicines since 1932. Later on changed its name as SBL Pvt. Ltd. and now SBL is the leading homoeopathic medicines manufacturing company in India that offers a wide range of world-class homoeopathic remedies including generics, single remedies, bio-chemic combinations, as well as high-quality herbal and cosmetic products.

Our state-of-the-art air-conditioned manufacturing facility at Sahibabad was built with the assistance of Boiron and continues to establish the production and testing as per International Standards and Global benchmarks.

Manufacturing facilities have been augmented with affiliate units at Jaipur, Haridwar I & II and Sikkim, matching and surpassing the standards already set.

### **• Different Sections of the manufactory with its working process**

- Mother Tincture & Mother Solution Section
- Potentisation Section
- Trituration, Tablet, Globules, making Section
- Syrup & Other Section
- Ointment & Lotion Section
- Ophthalmic preparation Section
- Container & closure Section

### **• Activities of R&D Dept.**

- Quality control testing
- Formulation development
- Clinical trials & Data analysis

### **• How the visit helped in correlation with topics studied in Theory**

The visit provided practical insights to the theory concepts learned in class. Observing the real world application, formulation development, quality control & clinical research helped in solidifying our understanding of these processes. It also highlighted the importance of rigorous scientific methods & adherence to regulatory standards in the manufacturing of homoeopathic medicines.

- **Conclusion**

Visit to Homoeopathic Manufactory (GMP Compliant) is about giving practical knowledge about manufacturing and quality control of Homoeopathy medicines on large scale by manufacturing unit and PCIM&H, Ghaziabad, Govt. of India.

It helped students to better understand the Theory part of Identification, Preparation, Potentization, Standardization of Drugs on large scale.
