Report on Skill station on Health Assessment

The Skill Station on Health Assessment was successfully organized by the Department of Medical Surgical Nursing in collaboration with F.Y.M.Sc Nursing Clinical Specialty students on 22nd April 2026, from 09:00 am to 04:00 pm at B.V (DU) College of Nursing, Pune. The program aimed to enhance the practical knowledge and clinical competencies of nursing students through hands-on training and systematic assessment approaches. The program commenced with the introduction to the inaugural session delivered by Ms. Bhagyashree Parab, F.Y.M.Sc Nursing students, who set the context of the event by highlighting the importance of skill-based learning in nursing education. This was followed by a warm and gracious welcome address by Dr. Veena Sakhardande, Associate Professor & Head of the Department of Medical Surgical Nursing, who emphasized the significance of accurate health assessment as the foundation of effective patient care and clinical decision-making. An informative overview of the Skill Station on Health Assessment was presented by Mr. Kaustubh Patil, F.Y.M.Sc Nursing, who explained the structure, objectives, and flow of the various stations designed for the participants. The inaugural session was further enriched by the guiding note delivered by Dr. Pravin Dani, Vice-Principal & Professor, who encouraged students to actively participate and utilize this opportunity to refine their clinical skills and critical thinking abilities.

The inaugural session concluded with an inspiring speech by Dr. Bhagyashree Jogdeo, Principal, B.V (DU) College of Nursing, Pune who appreciated the initiative taken by the department and students. Madam highlighted the importance of integrating theory with practical and motivated the students to maintain clinical excellence in their professional journey. The skill station was meticulously organized into multiple assessment areas, allowing participants to gain hands-on experience in different systems of health assessment. The stations included Neurological System, Respiratory System, Cardiovascular System, Eye Assessment & ENT, General Assessment & Integumentary System, Gastrointestinal System, and Musculoskeletal System. Each station was facilitated by F.Y.M.Sc Nursing students, who demonstrated procedures, guided participants, and provided opportunities for return demonstrations. The sessions were interactive. The program concluded with a heartfelt vote of thanks delivered by Ms. Bhagyashree Parab, who expressed sincere gratitude to the Principal, Vice-Principal, Head of the Department, faculty members, and all student organizers for their valuable support and contribution towards the success of the skill station.

Conclusion - Overall, the Skill Station on Health Assessment was highly successful and well-received by all participants. The event provided an excellent platform for experiential learning, skill enhancement, and professional development. It reflected the commitment of the institution towards promoting quality nursing education and fostering clinical competence among students.
