DENTAL COLLEGE AND HOSPITAL, SANGLI

INSTITUTIONAL DISTINCTIVENESS

**TRAINING FOR STAFF MEMBERS IN BASIC COURSE IN EDUCATIONAL
METHODS AND TECHNOLOGY:**

Rapid changes of modern world have caused the Higher Education System to face a great variety of challenges. Therefore, training more eager, thoughtful individuals in interdisciplinary fields is required. Thus, research and exploration to figure out useful and effective teaching and learning methods are one of the most important necessities of educational systems. Attention to this task in higher education is considered as a major one, so in their instruction, educators must pay attention to learners and learning approach; along with these two factors, the educators should move forward to attain new teaching approaches. In the traditional system, instruction was teacher-centered and the students' needs and interests were not considered

RESEARCH

The institution supports cohesive research through its research review committee. The undergraduate and postgraduate students are exposed to various government and non-government funding agencies like Indian Council for Medical Research (ICMR) for research grants and approval. In its former years the institution had taken the guidance for its research arena from its institutional faculty who are experts in the particular subject. Faculty members and PG students are encouraged to opt for external funding for research projects.

APPLICATION ATTESTATION FORM (AAF) STS 2023

STS Reference ID: 2023-11828
Name of the Student: NIKITA RACHEL DADEL
Name of the Guide: DR. AMOL DATTATRAY KARAGIR

BVDUDC is one of the most sought private Dental institutions in the state. The secret to this achievement is its strong commitment to 'QUALITY', as inscribed in its vision and mission statement. BVDUDC demonstrates this commitment to quality in all domains, especially Academics and Student Support which are its focus areas.

This 'Quality-drive' is disseminated and maintained by the IQAC, through Awareness programs, procedural documentation, regular administration meetings, training sessions, Faculty development programs, internal/external audits, student handbook, student mentoring program, stakeholder feedbacks to ensure quality.

In its pursuit of quality in professional education, ensures the same by strict implementation of the Dental Curriculum as mandated by the Dental Council of India. The academic cell has a robust monitoring system that periodically evaluates the performance of students. The outcome of which is evident in the excellent pass percentage acquired by students in the University examinations. The students get a preview of their specific upcoming program in the orientation programs that sensitize and prepare them for it. Orientation programs for the first years BDS, III-year Clinical students, and BDS Interns are conducted. The Learning Management System has made study materials accessible to students. The dental student is made ready on graduation by training in Clinical skills, value-added courses in the first and third year BDS and other student development programs. The student mentoring system paves way for academic and personal support to the student as they cope with academic and personal growth. The Research review committee fosters research culture among students and faculty. This holistic approach in dental education has always distinguished from other dental professionals.

Updated technologies-driven treatment, in the hands of empathetic, ethical, and trained professionals are the hallmark of patient care.

A systematic feedback system is also being followed by all the stakeholders of the college. The quality of the environment is periodically checked through green audits.

The Institution has also adapted itself during this pandemic by adherence to evidence-based protocols in the clinical areas and conduct of online classes to ensure the continuance of patient services

PUBLIC OUTREACH PROGRAMS

We render the needs of the rural community surrounding our institution through Oral Health screening camps. Each year around 5000 plus individuals get benefited from these camps and the treatments are offered at free of cost. We cater the needs of around 4,000 school students every year by conducting school camps with an emphasis on educating school students on maintenance of Oral health care and create awareness on associative disorders. We run two fully functional satellite clinics at Sangalwadi and at Turchi . Every year around 2000 individuals get benefitted.

Satellite Clinic at Turachi Phata

Satellite Clinic at Sangliwadi

ADOPTION OF SCHOOL

The institute adopted various municipal schools and decided to creating awareness and to provide dental treatment to these children.

Institute arranges regular camps and checkups for treatment of these children; thereby improving their oral health and also plan dental treatments for them by diagnosing and preparing a treatment plan for required children and accordingly provide free treatments to them such as scaling and polishing, fluoride applications, pit and fissure sealant application, various restorative treatment, extraction.
